

EQUILIN

Light and contactless intervention equipment for health emergencies

SOLUTION

EQUILIN is a **portable device** capable of recording the **main vital signs in less than 1 minute**, accurately and **without contact**.

BENEFITS

- LIGHT AND PORTABLE SYSTEM**
Total device weight **less than 500g**.
- CONTACTLESS**
Records biosignals between **0.5m - 2m**
- FAST AND EFFICIENCY**
Record of biosignals **≤ 1 min**
- ENVIRONMENTALLY FRIENDLY**
It does not require additional components
- ADAPTABLE SOLUTION**
According to customer needs
- COMPATIBLE**
Compatible with **wireless systems** and **hospitals communication standards**

TECHNICAL SPECIFICATIONS

RELIABILITY

- Heart rate: **± 2bpm**
- Respiratory rate: **± 2bpm**
- Oxygen saturation: **± 2%**
- Blood pressure: **± 10mmHg**
- Temperature: **± 0,27°C**

AUTONOMY

Total autonomy time: **24 hours**

REAL TIME PROCESSING

Processing of signals always in place

TRANSMISSION OF DATA

Data transmission through Bluetooth; access to clinical data in real time through the APP
